CCS Hardener
Safety Data Sheet
Date of issue: 03/02/2018     Revision date: 12/07/2018     Version: EH-CCS-2018a

SECTION 1: Identification
Identification
Product form : Mixture
Product name : CCS Hardener

Relevant identified uses of the substance or mixture and uses advised against
Recommended use : Curing agent for epoxy resins

Details of the supplier of the safety data sheet
Manufacturer
Gougeon Brothers, Inc
100 Patterson Ave.
Bay City, MI 48706 - U.S.A.
T 310-882-2120 or 989-684-7286

Emergency telephone number
Emergency number : CHEMTREC 1 (800) 424-9300
                   CHEMTREC International +1 (703) 527-3887 24 hr

SECTION 2: Hazard identification
Classification of the substance or mixture
Acute Tox. 4 (Oral)
Skin Corr. 1C
Eye Dam. 1
Aquatic Acute 3
Aquatic Chronic 3

Label elements
Hazard pictograms (GHS) :

GHS05
GHS07

Signal word (GHS) : Danger

Hazard statements (GHS) :
Harmful if swallowed. Causes severe skin burns and eye damage. Harmful to aquatic life with long lasting effects.

Precautionary statements (GHS) :
Do not breathe dust, fume, gas, mist, spray, vapours. Wash hands thoroughly after handling. Do not eat, drink or smoke when using this product. Avoid release to the environment. Wear eye protection, face protection, protective clothing, protective gloves. If swallowed: rinse mouth. Do NOT induce vomiting. If on skin (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower. If inhaled: Remove person to fresh air and keep comfortable for breathing. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a poison center/doctor. Wash contaminated clothing before reuse. Store locked up. Dispose of contents/container according to local, state, national and international regulations

Other hazards
No additional information available

Unknown acute toxicity
Not applicable

SECTION 3: Composition/information on ingredients
Substances
Not applicable
Mixtures

</tbody>
</table>

The exact chemical identity and/or exact percentage (concentration) of each ingredient may be held as confidential business information (CBI). Any ingredient not disclosed in this section may have been determined not to be hazardous to health or the environment, or it may be present at a level below its disclosure threshold.

SECTION 4: First-aid measures

Description of first aid measures

First-aid measures after inhalation: If inhaled: Remove person to fresh air and keep comfortable for breathing. Immediately call a POISON CENTER/doctor.

First-aid measures after skin contact: If on skin (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower. Wash contaminated clothing before reuse. Immediately call a POISON CENTER or doctor.

First-aid measures after eye contact: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTER/doctor.

First-aid measures after ingestion: IF SWALLOWED: Rinse mouth. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person. Immediately call a POISON CENTER/doctor.

Most important symptoms and effects, both acute and delayed

Symptoms/effects after inhalation: Causes burns to the respiratory system.

Symptoms/effects after skin contact: Causes severe skin burns. Symptoms may include redness, pain, blisters.

Symptoms/effects after eye contact: Causes serious eye damage. Symptoms may include discomfort or pain, excess blinking and tear production, with marked redness and swelling of the conjunctiva. May cause burns.

Symptoms/effects after ingestion: Harmful if swallowed. May cause burns or irritation of the linings of the mouth, throat, and gastrointestinal tract.

Indication of any immediate medical attention and special treatment needed

Symptoms may be delayed. In case of accident or if you feel unwell, seek medical advice immediately (show the label where possible).

SECTION 5: Fire-fighting measures

Extinguishing media

Unsuitable extinguishing media: Do not use a heavy water stream.

Special hazards arising from the substance or mixture

Fire hazard: Products of combustion may include, and are not limited to: oxides of carbon. Nitrogen oxides. Amines. When mixed with sawdust, wood chips, or other cellulosic material, spontaneous combustion can occur under certain conditions. Heat is generated as the air oxidizes the amine. If the heat is not dissipated quickly enough, it can ignite the sawdust.

Reactivity: No dangerous reactions known under normal conditions of use.

Advice for firefighters

Protection during firefighting: Keep upwind of fire. Wear full fire fighting turn-out gear (full Bunker gear) and respiratory protection (SCBA).

SECTION 6: Accidental release measures

Personal precautions, protective equipment and emergency procedures

General measures: Use personal protection recommended in Section 8. Isolate the hazard area and deny entry to unnecessary and unprotected personnel.

For non-emergency personnel

No additional information available

For emergency responders

No additional information available

Environmental precautions

Prevent from entering into soil, ditches, sewers, waterways and/or groundwater. See Section 12, Ecological Information.
Methods and material for containment and cleaning up

For containment: Absorb and/or contain spill with inert material (sand, vermiculite or other appropriate material), then place in suitable container. Do not flush into surface water or sewer system. Wear recommended personal protective equipment. Do not use sawdust or other combustible material to absorb spilled material.

Methods for cleaning up: Sweep or shovel spills into appropriate container for disposal. Provide ventilation.

Reference to other sections

For further information refer to section 8: "Exposure controls/personal protection".

SECTION 7: Handling and storage

Precautions for safe handling

Precautions for safe handling: Do not get in eyes, on skin, or on clothing. Do not breathe dust/fume/gas/mist/vapours/spray. Do not swallow. Handle and open container with care. Do not eat, drink or smoke when using this product. Ensure adequate ventilation. Wear personal protective equipment. When mixed with epoxy resin this product causes an exothermic reaction, which in large masses, can produce enough heat to damage or ignite surrounding materials and emit fumes and vapors that vary widely in composition and toxicity.

Hygiene measures: Wash contaminated clothing before reuse. Always wash hands after handling the product.

Conditions for safe storage, including any incompatibilities

Storage conditions: Keep out of the reach of children. Keep container tightly closed. Store in dry, cool, well-ventilated area. Avoid high temperatures. Protect from moisture. Store locked up. Protect from sunlight.

Storage temperature: 40 - 90 °F / 4 - 32 °C

SECTION 8: Exposure controls/personal protection

Control parameters

Poly[oxy(methyl-1,2-ethanediyl)], .alpha.-{(2-aminomethylethyl)-omega.-{(2-aminomethylethoxy)-(9046-10-0)
Not applicable

Polypropylene glycol (25322-69-4)

USA WEEL TWA (mg/m³) 10 mg/m³

Exposure controls

Appropriate engineering controls: Ensure good ventilation of the work station.

Hand protection: Wear suitable gloves resistant to chemical penetration.

Eye protection: Wear eye/face protection.

Skin and body protection: Wear suitable protective clothing.

Respiratory protection: In case of insufficient ventilation, wear suitable respiratory equipment. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator.

Environmental exposure controls: Avoid release to the environment.

Other information: Handle in accordance with good industrial hygiene and safety procedures. Do not eat, drink or smoke when using this product.

SECTION 9: Physical and chemical properties

Information on basic physical and chemical properties

Physical state: Liquid

Appearance: Clear

Colour: Clear

Odour: Ammonia like

Odour threshold: No data available

pH: 11.7

Melting point: No data available

Freezing point: No data available

Boiling point: > 400 °F (204 °C) (760 mmHg)

Flash point: > 200 °F (93 °C)

Relative evaporation rate (butylacetate=1): No data available
CCS Hardener
Safety Data Sheet

Famillability (solid, gas): No data available
Vapour pressure: < 1 (mmHg @ 20 °C / 73 °F)
Relative vapour density at 20 °C: No data available
Relative density: 0.95 (water = 1) @ 20 °C / 73 °F
Solubility: Soluble.
Partition coefficient n-octanol/water: No data available
Auto-ignition temperature: No data available
Decomposition temperature: No data available
Viscosity, kinematic: 15.8 mm²/s @ 25 °C / 77 °F
Viscosity, dynamic: No data available
Explosive limits: No data available
Explosive properties: No data available
Oxidising properties: No data available

Other information
VOC content: 8 g/l (CCR/CCS)
Bulk density: 7.95 lb/gal (0.95 kg/L)

SECTION 10: Stability and reactivity
Reactivity: No dangerous reactions known under normal conditions of use.
Chemical stability: Stable under normal conditions.
Possibility of hazardous reactions: No dangerous reactions known under normal conditions of use. A mass of more than one pound of product plus an epoxy resin will cause irreversible polymerization with significant heat buildup and pressure. Heating will cause a rise in pressure with a risk of bursting.
Hazardous decomposition products: May include, and are not limited to: oxides of carbon. Toxic fumes. Toxic gases. Nitrogen oxides. Amines.

SECTION 11: Toxicological information

Information on toxicological effects

**SECTION 13: Disposal considerations**

**Waste treatment methods**

Product/Packaging disposal recommendations: This material must be disposed of in accordance with all local, state, provincial, and federal regulations. The generation of waste should be avoided or minimized wherever possible.

**SECTION 14: Transport information**

**Department of Transportation (DOT) and Transportation of Dangerous Goods (TDG)**

In accordance with DOT/TDG

UN-No. (DOT/TDG): UN2735

Proper Shipping Name (DOT/TDG): Polymines, liquid, corrosive, n.o.s.

Proper Shipping Name - Addition: Polyoxypolyethyleneamine

Class (DOT/TDG): 8 - Class 8 - Corrosive material 49 CFR 173.136

Packing group (DOT/TDG): III

**Transport by sea**

In accordance with IMDG

UN-No. (IMDG): 2735

Proper Shipping Name (IMDG): POLYAMINES, LIQUID, CORROSIVE, N.O.S.

Proper Shipping Name - Addition: Polyoxypolyethyleneamine

Class (IMDG): 8 - Corrosive substances

Packing group (IMDG): III
CCS Hardener
Safety Data Sheet

EmS-No. (1) : F-A, S-B
Marine pollutant : No

Transport by air
In accordance with IATA
UN-No. (IATA): 2735
Proper Shipping Name (IATA) : Polyamines, liquid, corrosive, n.o.s.
Proper Shipping Name - Addition : Polyoxypolyamines
Class (IATA) : 8 - Corrosives
Packing group (IATA) : III
Marine pollutant : No

SECTION 15: Regulatory information

Federal regulations
All components of this product are listed, or excluded from listing, on the United States Environmental Protection Agency Toxic Substances Control Act (TSCA) inventory.
All components of this product are listed, or excluded from listing, on the Canadian DSL (Domestic Substances List) and NDSL (Non-Domestic Substances List) inventories.
